2. **Objects of the Exhibition.**—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together scientific, machinery and processes, the use of which it is desirable to bring to the notice of the masses, visitors and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the viewing public, articles intended for sale will also be admitted.

3. **Sub-areas and exhibits.**—Articles on a large scale and costly for sale will have to be kept in separate sheds and in charge of the exhibitors at their expense. There is no objection to the sale of actual exhibits, but they will not be allowed to be removed from the Exhibition grounds till the termination of the show. Articles exhibited for purposes of sale alone may be removed after payment. No article will be allowed to leave the Exhibition grounds without a "gate pass." Those who desire special facilities for the sale of articles or demonstrations of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee.

4. **Exhibition show.**—The International show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 4th of October 1911 and kept open till the following day.

5. **Entrance.**—Visitors upon subjects connected with Agriculture and Industry will be thankfully received and provided in book forms for distribution at the Exhibition.

6. **Entrance fees.**—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The contest of demonstration will be arranged later on by hand sale and auction.

7. **Donations.**—The Committee will thankfully accept donations for exhibiting prizes or medals from individuals or associations desiring to give an impulse to any special branch of agriculture or industry.

8. **Classification of exhibits.**—The classification of exhibits will be according to the price list referred to in the Prospectus and entries in several sections should be made to the appropriate forms provided.

10. **Display.**—Leading experts and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

11. **Admission fee for visitors.**—An admission fee of rupees two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Rs. 1-5-0 per head. U. SUBBESWAMI IYER,
Secretary.

NOTES ON THE LACK AND IMPROVEMENT SECTION OF THE MYSORE DISTRICT INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian vernacular English terms used for needle-work and embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always indicated what articles are required and will be accepted, and have not in much to former Exhibitions that, even if good in itself, was deferred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroidery, etc., only results in confusion, dirt, damage to the exhibits, and prevents their being adequately shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, dress and ditty, whether included in the Prospectus or not, the Sub-Committee wish the Exhibitors to be confined to such specimens only as—

- (1) are asked for in the Prospectus,
- (2) are considered by them to be really of excellent workmanship,
- (3) are new and fresh.

N.B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A lace exhibit."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk, perfectly finished to good size of a new colour, would stand a better chance of reward than a score of less carefully finished.

With notes, labels, torn or dirty work cannot be accepted.

Competitors will please note that this year machines worked in wool work, worsted work, shawl work or hand work are not included in the Prospectus; and that no hand work or machine-made work is to be sent to Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration, as well as beauty of design, material, colouring and workmanship.

Preference will be given to Swedish exhibits and particularly to those of the Mysore manufacturers.

PLUGHING COMPETITIONS.

In the prize list published with the prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prize are published for information—

Intelligence and improved implements of all kinds will be admired, the different classes of implements being allowed to compete separately.

- (1) *Ploughing*.—Each competitor will be required to plough completely one plot of red loamy soil, measuring four guntas in an hour and a half.
- (2) *Ridging*.—To ridge up completely a three guntas plot in an hour and a half.
- (3) *Drainage*.—A four guntas plot will have to be drained in twenty minutes.
- (4) *Seeding*.—A four guntas plot to be sown in twenty minutes with a seed drill.

(3) *(c) Threshing*.—A given quantity of a given kind of crop to be threshed by with, stone mill, or power machine.

(4) *Winnowing*.—By machine of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the medals are received and the various kinds of implements and machinery competing are known, and the precise provision of sowing (if) will be determined if necessary. The competition will be held between the 11th and 19th October, and the details regarding the days and hours of the competition, and the prizes will be intimated to the applicants on or about the 1st October.

No. 1189.—The following letter from the American Consul at Madras and the prospectus of the International Municipal Congress received with it are hereby published for general information:—

Letter—from the American Consul at Madras.

To—the Secretary to Government, Local and Municipal Department.

Dated—the 21st June 1911.

No.—M.O. 151.

I have the honour to inform you that I am instructed by the Honorable Secretary of State at Washington to communicate to the Government of Madras the following invitations.

There will be held in the city of Chicago, State of Illinois, United States of America, from September 19—30 next an International Municipal Congress and Exposition under the auspices of the Chicago Association of Commerce.

This Congress and Exposition will be thoroughly international in its scope, and is the first one of this kind ever held in the United States. It is intended to set forth by municipal experts the advancement of municipalities by showing the possibilities of making city government an asset, and of capitalizing a city's attractions.

It is desired that all cities should participate in the Congress and Exposition which have anything to offer of advanced ideas along such lines as charities, forms of government, municipal accounting, parks, playgrounds, health, sanitation, charity and correction, taxation, house rent, schools, police, fire and libraries.

It is hoped that each city may be represented by a personal delegation and by some contribution in the shape of models, charts, photographs or views.

The presence of experts of world-wide fame and known ability will make possible at this Congress comparisons between communities and cities, thus offering to some the opportunity of contributing, and to others the privilege of learning.

Formal invitations will be, at a later date, forwarded by the Chicago Association of Commerce directly to the municipalities.

There will be held at the same time in Chicago, an International Good Roads Congress.

While these Congresses are not under the auspices or official patronage of the Government of the United States, this Government would be glad if the Government of Madras would give due publicity to the Congresses mentioned and would recommend the sending of delegates to those Congresses by the municipalities and organizations which may be interested.

A copy of the prospectus of the International Municipal Congress and Exposition is herewith enclosed.

In communicating to you these invitations, to the Congresses, I would most respectfully request that you will cause due publicity to be given them.

I avail myself of this occasion to renew to you the assurance of my highest respect and consideration.

Lack of knowledge undeniably exists, both at home and abroad, as to the needs of municipalities everywhere. The Chicago Association of Commerce has for two years been planning and preparing the International Municipal Congress and Exposition, to be held in Chicago, September 15th to 30th 1911.

Municipal advancement.—It is believed that through this municipal exposition, making possible comparisons, one community with another, of their systems of government, their notable accomplishments of the past and their plans for the future, a spirit of rivalry and civic pride will be developed that will do much for the advancement of municipal betterment.

Make city government an asset.—This country has only recently begun to recognize the fact that the character of a city's government may have a great bearing on its commercial prosperity. Hence the public are making municipal, and progress in the direction of efficient city government would be speedy and substantial.

Municipal experts.—Experts of world-wide fame and known ability will attend the Congress, which will be in session throughout the entire term of the Exposition, addresses will be made and important subjects discussed by recognized authorities from all parts of the civilized world.

City-life a city's attraction.—It has long been recognized in Europe, but only recently considered in this country, that the attractions of a city are as definitely valuable to its growth and prosperity as are its railway facilities or available markets. Therefore no matter what may be your occupation you are interested in making your city wholesome and beautiful.

Construction, maintenance and operation.—The Exposition will be made up of exhibits furnished by municipalities of this and many other countries as well as by contributors and donors for the purpose of explaining their individual uses. Necessarily these exhibits must be limited to manufactured products and materials available for municipal use. It will, however, in addition to standard necessities for the building and up-keep of a city in all its departments, embrace a wonderful variety of ingenious, interesting and educational features.

Education.—This Congress and Exposition, which is welcomed by the strongest civic organizations in this and other cities, is by far the most comprehensive attempt ever made in the history of civilization to bring together the most intelligent education in all lines of municipal advancement.

No other Exposition has ever been contemplated on such a broad plan and with such a wide scope.

The progress possibilities for a Congress and Exposition of this character are almost unlimited.

GOVERNMENT EXAMINATIONS

SPECIAL TEST EXAMINATIONS—OCTOBER 1911

NOTICE TO CANDIDATES FOR THE FORTH-WRITING TEST.

The following instructions are published in order that candidates may know what is expected of them in this test.

Instructions to Candidates.

The object of a pen test is that any one who has not time to read the original correspondence may, by reading the notes, be put in possession of all the leading features of what passed.

2. The candidate should begin by writing the title of the correspondence correctly through without writing anything, so that he may clearly express of what case it and be in a position to do so what are the main heads under which the important facts should be arranged. He should then read through the paper again marking what is important.

3. The notes should begin with a brief and brief introduction to the subject under treatment. This should be followed by a summary in the past tense containing a brief and clear statement of the contents of the correspondence in the order of the papers for even recovery in chronological order, but in logical order. An abstract of every paper in the correspondence or an index of its contents is not a pen test.

4. The merits of a pen test are—

- (1) to ensure all that is important in the correspondence and nothing that is unimportant;
- (2) to present facts in a readable and systematic shape, expressed intelligently and distinctly as possible;
- (3) to be as brief as is compatible with completeness and accuracy;
- (4) to present a clearly accurate and logically connected statement of the contents of the correspondence.

No candidate can expect to pass who writes any one of the seven important points; marks will be deducted if unnecessary points are included or if facts are repeated unnecessarily; i.e., it is not absolutely necessary to give the date of every paper in the correspondence and also full names and designations of the writer on every point, and if a fact is repeated in different papers it need not generally be stated more than once in the notes.

5. Grammar, spelling, style and handwriting will be considered in judging marks; but it must be remembered that perfection in any one position will not compensate for deficiency or incompleteness in the presentation of the facts of the correspondence.

(By order)

2. Tree-tapping licenses shall be issued on the application—

- (a) of licensed toddy shopkeepers in areas in which the toddy shops are sold by auction or licensed separately;
- (b) of persons having the exclusive privilege of manufacture and supply of coconut toddy such as foreign liquor;
- (c) of persons having the exclusive privilege of manufacture and vend of country spirits in British Ceylon;
- (d) of persons on their own application in the South Ceylon district, provided the application for license is accompanied by an application for a permit for the removal of the toddy down to some particular place and that the latter application is countersigned or acknowledged to be correct by the shopkeeper in whose shop the toddy is to be taken;
- (e) of persons generally, and of sweet-toddy tappers in the Galle district, and in the Nuwara, Mannar, Trincomalee, Jaffna, Kandy and Kandygalla, towns of the Eastern district, for not more than five trees in the case of true owners and those trees in the case of sweet-toddy tappers, for the drawing of toddy required for domestic consumption, but not for sale; and
- (f) of toddy shopkeepers or persons in the Mysore territory and in the Rangoon State desiring to obtain toddy from trees growing in British territory.

In cases (b), (c), (d) and (f) the license may be issued in the name of the applicant himself or of his assistant, and in case (e) in the name of the applicant only.

3. Persons wishing to apply for the grant of tree-tapping licenses must first pay the fee (or the first instalment thereof, as the case may be) due on account of the issue which they desire to tap, into a Government treasury, which may be either the District treasury, a Taluk treasury or a Sub treasury. Divisional officers may also empower heads of villages to receive payments on account of tree-tap and to grant receipts therefor.

4. (1) Applications for the grant of tree-tapping licenses must be made in the prescribed form to the Inspector, Salt, Alkali and Customs Department, in charge of the district in which the trees are situated. Forms may be obtained from the Inspector of Salt, Alkali and Customs Department, and from all Tahsildars and Deputy Tahsildars and will be supplied, free of charge. Applicants pay in by shopkeepers and tappers need not be stamped; those paid in by other persons must bear a receipt-free stamp of some value. In any case, if the fee has been paid into a treasury, the applicant must attach a certificate of payment from the treasury officer; if payment has been made to a village head the receipt must accompany the application. Mysore owners and shopkeepers applying for trees in British territory should pay the tree tax into the Mysore Assistant's treasury and should present before the British Tahsildar or Deputy Tahsildar concerned along with the application in form T.T. 4, the receipt with the Assistant's certificate at the foot in the effect that the applicant is a person entitled to take out a tree-tapping license in Mysore. The tree-tax should be calculated at the higher rate if the trees are cut the same on the two sides of the frontier.

(2) Applications for tree-tapping licenses in the South Ceylon district should be countersigned by the owner of the trees intended to be marked as trees of his estate.

5. Toddy shopkeepers in British territory may also be allowed to tap trees in the Mysore territory for the supply of toddy to their shops on payment of the whole of the tree-tax in the instalment into British treasury and subject to such restrictions regarding permits, etc., as may be prescribed in this behalf. The rate of tree-tax to be paid in such cases will invariably be the higher rate in force if the trees are cut the same on the two sides of the frontier.

The British and Mysore Governments reserve to themselves the right to impose, in addition to the tree-tax, a rent for the use of trees belonging to them, the same when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licenses for tapping trees in either territory on the application of farmers or shopkeepers in the other do not prevent the introduction of trees in any specified area in the Madras Presidency or in Mysore with a view to afford such licensees or other entitled persons and the same payment of tree-tax into a British or Mysore treasury does not enable an applicant to tapping license for trees so reserved.

6. Toddy shopkeepers in British territory adjoining the Rangoon State will be allowed to tap trees in the State on payment of tree-tax, the rate being the same as in the Rangoon district. Similarly those in the Rangoon State will be allowed to tap trees in the adjoining British territory.

7. Persons applying for the issue of licenses will be responsible to Government for all sums payable as tree-tax on account of the trees licensed to be tapped.

8. (1) On receipt of an application, the Inspector, unless he sees special cause to the contrary, will at once take steps for the marking of the trees by an officer superior in rank to a petty officer and for the issue of the license. Applications for trees shall point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so or other reasonable excuse, the fees paid by them shall be liable to be retained at the Collector's discretion.

(2) In the Galle district and in the Nuwara, Mannar, Trincomalee, Kandy and Kandygalla, towns of the Eastern district, trees intended for the drawing of sweet-toddy and those for the drawing of sweet-toddy shall, as far as possible, be in separate trees or blocks.

9. Collectors may, from time to time, prescribe the maximum number of trees to be entered in an original application. They may also direct that the trees situated in one village only shall be included in an application.

10. No trees shall be tapped, nor shall toddy be drawn from any toddy tree, nor shall any pot be attached to any toddy tree, until the tree has been marked by the proper officer.

11. The permits and date-trees in the Presidency and by District (Districts) trees in South Ceylon, tree-tapping licenses shall be issued, that is, in force from 1st October or any subsequent date in the first week of the immediately following, and for coconut and mango trees they shall be half-yearly, that is, in force from 1st October or any subsequent date in the first week of the immediately following, and from 1st April or any subsequent date in the first week of the immediately following, except in the case of the trees having been already tapped, when the full tree-tax may be levied.

13. The following shall be the fee payable on account of each use for the purpose of which license is applied for:—

[illegible]

12. The fees payable on account of any licence issued under these rules shall be payable in the following instalments, unless the Commissioner of Salt, Alkali and Separate Revenue shall otherwise direct:—

Between 1st May and 30th June in any year.	The whole at the time of application.

14. Every instalment of tree-tax shall be paid on the first day of the month in which it falls due.

18. For the convenience of applicants, applications will be received from 1st September to 1st March; but no time will be wasted, nor letters issued, nor propositions of apportionment presented before 16th September or 16th March; and no tally shall be given except during the vacancy of the House.

18. All holiday draws are for the tree-topping license granted in accordance with these rules shall, as soon as the pole containing it is removed from the trees, be immediately awarded either to a firefighter, still or a licensed today shop under a general tree-topping permit which will be granted by the City Engineer. In the South County district where a license is desired to change the class to which the holiday is to be taken, the permit will be awarded on application and as representative of two classes in the City Engineer's office. The rules for the use of the holiday are as follows: The holiday is drawn under these rules shall be sold otherwise than to a licensed dealer, still or a shop-keeper except at a regularly licensed shop. SALT, ANKARI AND CUSTOMS DEPARTMENT.

NOTIFICATION.

No. 6, dated 12th July 1911.

NOTICE OF SALE OF ANKARI PRIVILEGES.

Notice is hereby given that the auction of farms and independent shops appointed for the sale of liquor during the twelve months beginning 1st October 1911 and ending 30th September 1912 and the local licence appointed for them, will be notified by Collectors in their District Division, and that the privilege of sale thereof will be put up in public notice on the date, at the place and by the officers to be notified by Collectors subject to the conditions hereinafter set forth.

Qualifications of Auction Sale.

1. The districts in which independent toddy shops, anark farms and anark and toddy farms, respectively, will be sold are specified below:—

Independent toddy shops.	Anark farms.	Anark and toddy farms.
1.	2.	3.
Throughout the Presidency including the Nergampalle State and including the Nigri taluk and anark farms in the Madhav district.	Coimbatore and the Arunachal taluk.	Seydisse taluk, including the Nigri taluk, and anark farms in the Madhav district.

A separate notification will be issued regarding operations under the auction system. Collectors will have orders regarding the terms when special provisions are made for sale.

III. A deposit must be made by each bidder previous to bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 10 will ordinarily be required from any person offering to bid for any independent shop or any large number of shops. Rs. 10 will be required to bid for any independent shop or any large number of shops of an aggregate monthly value of Rs. 50 or less and to Rs. 2 in the case of bidders for single small shops. In the case of farms Rs. 100 will be the ordinary deposit. This will be reduced to Rs. 50 in the case of bidders for farms of an aggregate monthly rental of not more than Rs. 100 and to Rs. 10 in the case of bidders for single small farms. In the Kanyakumari district, the selling officer may, where he finds it necessary, require a deposit of Rs. 10 only from bidders for single shops. In the South Canara district, the selling officer may at their discretion reduce the deposit to Rs. 5 for shops whose average monthly rental does not exceed Rs. 2.

IV. The shops or farms will be put up in auction in the order in which they are notified, unless the selling officer sees reason to change that order. The price will be fixed at the discretion of the Collectors. The reserve price placed by Government on the shops or farms will not be published, but the average of the previous five years' rentals will be notified by the Collectors, whenever possible, for the information of bidders.

V. No person will be allowed to bid for another unless he holds a power-of-attorney from him.

VI. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of a license or of a contract under the Auction Act, as to render him unfit to be a holder of a license or on the ground that he is insolvent or to prevent arrangements to the detriment of Government interests or for any other valid reason. He may also refuse any bid which

he may consider to be purely speculative, after receiving his reasons for doing so. Village officers will not be allowed to bid for, or to have any direct interest in shops for the sale of consumables.

XII. The shops and farms will be knocked down to the highest bidder, but the sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be contingent on an acceptance of the bid, unless reserved by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

XIII. In case of dispute the selling officer's decision shall be final. If for any reason the highest bid is rejected, the next highest shall be taken or the shop or farm re-sold at his discretion.

IX. At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. At the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit* of half a month's rent (in addition to the deposit made under clause XII) for each shop or farm unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him under clause XII will be forfeited and the farm or shop will be put up again immediately by the selling officer on the above conditions or otherwise disposed of by the Collector and the bidder will be debarred from bidding again for the same or for any other farm or shop.

X. Persons to whom farms and shops have been knocked down and who have made deposits as provided in clauses XII and IX shall also deposit* with further sum as with the former deposits will make up two months' rent (to be paid within ten days from the date of confirmation of the Collector's acceptance of the bid) and shall within necessary delay execute the necessary engagements and take out licenses on the conditions hereinafter set forth. In the case of the purchaser's death after signing the agreement, it will be binding on his heirs and assigns. Should the initial deposit exceed the sum required to be deposited under this clause, the excess will be refunded unless the purchaser is required to deposit twice that sum under clause XI below.

XI. If an enquiry subsequent to the purchase shall be found to be of doubtful validity, he may be required either to deposit twice the sum prescribed in clause X above, or to get a security or securities to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. The bond shall be stamped (article 86, schedule II, Act II of 1899) and registered at the expense of the purchaser if the amount secured exceeds Rs. 1,000.

XIII. On the failure of any person to make deposit under clause X or to comply with the regulations under clause XI above or to execute engagements and take out licenses as aforesaid, the deposits already made may be forfeited and the shop or farm re-sold under the orders of the Divisional Officer on the date notified by the Collector or otherwise disposed of by the latter officer.

XIII. Re-sold effected under clause XII will be at the risk of the detaching bidder, who will forfeit all bids, and in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case the forfeited deposits will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recoverable from the defaulter in the same manner as if it were an amount of land revenue. Should, however, the forfeited deposits be greater than the loss by re-sale, the whole of such deposits will be credited to Government. The detaching bidder will be similarly liable if the privilege is disposed of otherwise than by re-sale and such disposal results in loss to Government as compared with original sale.

XIV. The purchaser of the privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him.

XV. The deposit referred to in clause X or clause XI, as the case may be, will be taken as security for the due performance of the conditions of the license. If the defaulter fails to execute or agree, it may be credited towards the last instalments of the bids payable by the latter.

The license issued under these provisions will contain the following general conditions common to all shops and open deposits and the special conditions prescribed below.

General Conditions applicable to all Abkari and Opium Licenses.

1. Contract supplies of country spirits are prohibited from holding within their contract areas any interest in the retail trade of spirits, or in the trade of other intoxicating liquors such as toddy, foreign liquor and beer, and from employing any person who has such interest. This prohibition does not extend to the wholesale supply of foreign liquor or of distilled spirits to licensed vendors; nor does it prevent them from holding no interest in the retail sale of country spirits in areas other than those for which they have been granted the supply contract, or from holding shops and opium shops either within or without their contract areas.

2. The trade within which sales under any abkari or opium license may be carried on will be specified by the Collector at the time of the grant of the license. The sale of consumables (except as hereinafter provided) is prohibited.

3. Sales must be conducted in a suitable building of which the whole or part must be suitably set aside for use as a depot or shop. If there are means of communication between the depot or shop and an adjoining dwelling-house, they must be kept locked at night. In the case of shops set aside for use in the manufacture, or trade in, or having a population of 50,000 and over, the shop premises shall have no doors except into the main street; these shall be of portable means of ingress or egress in any other direction: the interior of the shop shall be sufficiently lighted by day and the shop shall not be used as a place of residence save by the vendor and his family or servants.

4. Except in the case where two or more foreign liquor houses are held by one person, sales under such license must not be in different premises (cellars and drugstore and medical provisions excepted) than in which the license holder, or any of any persons or substance used or capable of

* Deposits may be in cash or other approved security.

* Includes Deputy Tahsildar in independent charge.

28. No securities or statements of the fact shall be claimable on any account whatever.

29. Any sum due by a licensee may be collected * under the Revenue Recovery Act or adjusted from the deposit, if any, made by him at the commencement of the lease. He shall be bound to replace any sum advanced from his deposit within fifteen days of receipt of notice from the Collector.

30. Power is further conferred to Revenue officers to suspend * licenses in case of failure of payment of duty or (in the case of toddy) tree-tax also on the due dates. In the case of toddy, toddy, gully and butt slugs and licenses, this power will be exercised by Tahsildars in the case of toddy slugs by Divisional Officers and in other cases by the Collectors.

31.
